Contract Year

06/01/20 -05/31/21

To: The Village of Freeville

Below you will find the rates that the Village of Freeville and Alternative Waste Services have contracted upon for 1 year with the option to extend at the end of that. (at this time we will only do 1 year contracts as the costs of landfill fees and labor rates each year keep drastically changing) These rates will not change during contract period of time. At end of term we reserve the right to review pricing.

At this time there will be a 10 percent increase to the monthly cost of pickup as well as an increase in cost per sheet of tags, we have in the past 2 years received 6 landfill increases reaching more then 30 percent in our costs, please see below the new break down for the upcoming year.

As Follows: \$6.05 a unit. With 178 total units the village would incur a cost of \$1076.90 per month or \$12,922.80 per year. Also being in Tompkins County the use of tags is necessary in which we would sell them to the town at a cost of \$11 per sheet. With the estimation that we were provided that the village sells about 600 sheets per year, the cost on the tags is estimated at \$6600.00 per year. Also there are new places for the Freeville residents to purchase the Tompkins county tags (dark green in color) The Dryden Speedway on North Street as well as the Kinney Drugs are now a provider as well.

Alternative Waste Services, Inc. would also like to state, that any problems that arise will be dealt with directly and promptly. We offer the village residents the ability to call Bob Mente (President/CEO) directly if they feel the need at (607)351-0578 as well as our office at any time (607)564-7717

We thank the Village of Freeville for the opportunity to provide the community with our well-known customer service, and we hope to serve you in the years to come.

Bob Mente President/ CEO
